

Lyrics

**My Serious Days Are Over
Demo Recordings**

Adrift

**All songs written by Shawn Stewart (1998-2000)
Performed by Adrift**

World Whirled

Oh I talked to Mother Nature today
She said she'd want to be young again
She's been taxed beyond her years
And she can't afford to pay

She's just like the Queen of Why
Has feeling and emotions, the seas and the oceans
Oh you should see her work on Saturday

Cry sea, I see you falling and I'll never understand
Cry sea, I see you sporting and it's all because of

World whirled, lalalalalalala
World whirled, lalalalalalala

Father, brother, mother, sister I don't care
Because we've done the same
And we've made a horrible mistake

The air we breathe the food we kill, I'm so ashamed
Faltered acres fall
And I'm standing here wondering who's got the axe to my legs

Cry sea, I see you falling and I'll never understand
Cry sea, I see you sporting and it's all because of

World whirled, lalalalalalala
World whirled, lalalalalalala

Lazy Orbit

Download it doesn't matter when you're not here
Online it doesn't matter when you're not here

You're lazy in orbit, you're lazy

It's only 4am, much too early to shut it down
Peter loves to fondle Debra's URL

Electronic female I'm OK
Uh oh you've got a message in the waiting
You're lazy

You're lazy in orbit, you're lazy

And when you feel alone, finger feeling and fantasy
I'll be your friend or foe for a small service fee
Electronic female, I'm OK
Uh oh you've got a message in the waiting
You're lazy

A webbed wide world for you to spend, receive
A wicked wishful while for you to bend, deceive yourself

Electronic female, I'm OK
Uh oh you've got a message in the waiting
You're lazy

Alice in No Wonderland

Where does your garden grow?
And when will it show?
I'm uncertain you planted it, Alice, Alice

I'll say these drugs don't work anymore, you're fading fast

(Alice in no wonderland)
The tea party is on, but what's in my tea?
And why is he laughing at me?
(Alice in no wonderland)

Where did your fashion go? And when will you know?
That smoking died with bells and pinks
Oh, Alice

(Alice in no wonderland)
The tea party is on, but what's in my tea?
And why is he laughing at me?
(Alice in no wonderland)

I'm not the only boy, I'm not the only boy
I'm not my only toy, I'm not my only
A chain on your wallet, are you paranoid? Or has fashion passed you by?
A chain on your chain, now I really must go..

What's New Star?

Hey Mr. Bond, with your suitcase smiles, we want you to, we told you too
(This landslide)

And if you're wanting two, go on at 2, we want you too, yeah
And don't you require is feeling flight

Hey Suzie smiles, age as you like
Hey Timmy, ride, we want this.. we do ride

And if you're wanting two, we want you too, go on and move, yeah
And don't you require is feeling flight

(one more question, do you have any special advice for young people who drive?)
(take it easy driving, the life you might save might be mine)

What's new star? Idol idle Idol, I don't
What's with this? With this voice? Yes, it's hoarse

What's new star? What's new star?

Obsessive Bar Patron

Hey you, I wanted to do you
It's all I can say too
I wanted to be news

And if I want when you want, you won't see me in the morning, yes I'm sorry

And if this what you planned,
Well tell me I'll understand
If this is what you planned,
Tell me I'll have this dance

May, June.. I wanted to be cute
Oh, furious ways too
I wanted to feel, sue

And if I feel what I feel, when I feel drunk, yes it's sorry

And if this what you planned,
Well tell me I'll understand
If this is what you planned,
Tell me I'll have this dance

Dance (around and around)

Punch Drunk

I see you and I'm so sad
You never expected it to end this early,
Look at the time it's only 1999

I'm so sorry and I understand
You could not take another blow
Your career falling faster than your woman's braziere

And now you're done, and oh so young
You were just so competitive
And never listened to what the doctors told you

Singing nanana, Singing nanana, You're punch drunk, yeah
Singing nanana, Singing nanana, You're punch drunk, yeah

Your young child paid bi-monthly
Was it worth all the pain and glory?
Of course it was, you were doing what you loved

Singing nanana, Singing nanana, You're punch drunk, yeah
Singing nanana, Singing nanana, You're punch drunk, yeah

Here Stands a Sated Man

I at the top, half empty as you sucked the straw
You, studied me, as I read the bible from a magazine

I can't helpself, oh.. Annie
I can't helpself, oh.. Annie

So wear your troubles on your sleeve
Here stands a sated man
So wear your troubles on your sleeve
Here stands a sated man

Terse hinted lines, I've not got the time to receive and decode
I cracked upon pressure, too full up on a bus ride of pleasure

I can't helpself, oh.. Annie
I can't helpself, oh.. Annie

So wear your troubles on your sleeve
Here stands a sated man
So wear your troubles on your sleeve
Here stands a sated man

Where were you, my Eskimo? In my mind, I had to go
Where were you, my Eskimo? In my mind, I had to go

Sante

(sucker, sucker)

I stole my thoughts from you, imagine
Settled in the pocket of your lonely home

I never had the chance the build it
247, telephone, you're on your own

We're just boys, and you're just girls
Let's settle this like two mature fucking adults

(spending high, talking low)

Sante, I removed you
Sante, I removed you

Kenneth was an all-star back in college
Drifted past the SATs, I, me and you
My favorite line of his, was "I'll sell you this"
Until I realize I've been mistaken

We're just toys, and you're just pearls
Let's play our favorite game and then steal away

Sante, I removed you
Sante, I removed you

The Ha-Ha Club

(do, do, do)

What's wrong? The world bleeds, you're deceived, and the priesthood needs
Missiles launch, you're losing sleep, because they've aimed the X at your new TV
Ha

Fire me, I'll shoot you, we'll settle this all throughout the evening news
Fire me, I'll shoot you, we'll settle this all throughout the evening news

Laughing Ha-Ha Club, you're part of it now
Crying Ha-Ha Club, the club of diseased
And through all the tease and fray
Are you going to be OK?
You're part of it, now

And then there's her, a spoiled girl whos name rhymes well with 4 letter words
She's not that bad, it's her beliefs that earned her one way fare to hippocritic hell

Fire me, I'll shoot you, we'll settle this all throughout the evening news
Fire me, I'll shoot you, we'll settle this all throughout the evening news

Laughing Ha-Ha Club, you're part of it now
Crying Ha-Ha Club, the club of diseased
And through all the tease and fray
Are you going to be OK?
You're part of it, now

Soothing Scandals Of

The beggar banter's boy, on the side of the street
Called your name, and you answered "Yes?"

I'm not one to take things for granted but there's always more to people when they hasten
Their hopes and pains and hero's that they passion
The soothing scandals of
Them and I and you when it lasted, traffic jam at noon, oh you lucky bastard
Transparency you're all an illusion
The soothing scandals of

The fortune telling business on the brink of defeat
They said that you'd succeed
And oh the irony, yes.. yes..

I'm not one to take things for granted but there's always more to people when they hasten
Their hopes and pains and hero's that they fashion
The soothing scandals of
Them and I and you when it lasted, traffic jam at noon, oh you lucky bastard
Transparency you're all an illusion
The soothing scandals of

La, la la la la

I'm not one to take things for granted
Their hopes and pains, the hero's that they passion
Them and I and you when it lasted
Traffic jam at noon, oh you lucky basted
